Subject: Certificate for 5GHz data antennas UBIQUITI RocketDish

We declare the antenna **RocketDish** manufactured by UBIQUITI NETWORKS, USA is conformal with ETSI standard EN302326DN2, technical specs as follows:

Frequency range: 4,9 - 5,9 GHz
Characteristic impedance: 50ohm
VSWR 4,9 - 5,9 GHz: $\leq 1,4$
Gain 4,9 - 5,9 GHz: 28 - 30,25 dBi

This technical parameters entitle to use this antenna in frequency range 5GHz following the local regulations for applicable active electronics usage.

Appendix1: Manufacturer's product datasheet with detailed technical specifications
